

Cable Marker

TECHNICAL DATASHEET

Cable Marker

Cable Markers are designed for clear identification and organized labeling of electrical wires and cables. Made from flexible and durable material, they ensure long lasting readability and reliable performance in electrical installations.

FEATURES

- Made from PVC material for durability and flexibility.
- Oil and corrosion resistant for long term use.
- Heat resistant up to 85°C.
- Hollow yet elastic structure for easy installation.
- Adjustable diameter to fit different wire sizes.
- Suitable for electrical industrial and utility cable identification.

TECHNICAL DATA

Model			Markers	Packing
	SQ (mm²)	mm		
EC - 0	0.75 ~ 1.5	2.0 ~ 3.2	0 ~ 9 A ~ Z +- /\	1000PCS / Roll
EC - 1	0.75 ~ 3.5	3.0 ~ 4.2		1000PCS / Roll
EC - 2	3.5 ~ 8.0	3.6 ~ 7.4		500PCS / Roll
EC - 3	6			350PCS / Roll
	10			200PCS / Roll
EC - J	2 ~ 8	0.5 ~ 7		500PCS / Roll

About Us

Snowlite began its journey in 2006 with a vision to become the most trusted electrical brand in the world. Guided by this purpose, we have built a strong global footprint across 20+ countries in Europe, Africa and Asia over the past two decades.

Today, Snowlite has developed advanced manufacturing capabilities in India, Turkey, Malaysia and China. Our identity is shaped by three core commitments reflected in every product we create- innovation, quality and affordability.

At Snowlite, we serve residential, industrial and commercial sectors. Our ever-expanding product portfolio includes cables, lighting, tools, switching devices, control and automation equipment, ventilation systems, protection devices and accessories.

More than 3,000 retail partners and 100,000+ end users place their trust in our products thanks to our consistent focus on quality and support throughout the product's lifetime.
