Diagonal Cutting Pliers

Diagonal Cutting Pliers are precision tools designed specifically for cutting wires and small metal components with ease and accuracy. Ideal for electrical and industrial tasks, they deliver clean cuts and reliable performance in demanding environments.

FEATURES

- Hardened cutting edges for sharp, precise wire cutting.
- High grade steel construction for strength and durability.
- Angled jaw design for improved access in confined spaces.
- Ergonomic handles for reduced hand fatigue during use.
- Corrosion resistant surface for longer service life.
- Suitable for electrical, mechanical, and maintenance work.

TECHNICAL DATA

Product Name	Model Number	Specification
Diagonal Cutting Pliers	SNTL - 102	150mm / 6”
